**About The Program**

This program is designed to bring awareness to young drivers of the dangers associated with operating a motor vehicle and what they can do to be safe behind the wheel.

Participants will maneuver a street-legal electric car through an obstacle in a controlled environment under at least two of the following conditions:

- Unimpaired and with no distractions
- Texting
- Wearing goggles designed to simulate alcohol impairment
- Wearing goggles designed to simulate drug impairment

Eligible participants will meet one of the following requirements:

- Have a valid learner’s permit
- Have a valid driver’s license

For additional information on our Distracted & Impaired Driving Program, please contact us at:

Our Goal is to Prevent Unnecessary Loss of Life

Seatbelt Usage
According to the National Highway Traffic Safety Administration (NHTSA), in 2009:
- 11% of all the drivers involved in fatal crashes were between 15 and 20 years old.
- 27% of all vehicle occupants killed were ejected from the vehicle.
- 53% of the passenger vehicle occupants killed were unrestrained.

Texting While Driving Statistics
- According to the U.S. Department of Transportation, cell phones are involved in 1.6 million crashes each year, causing half a million injuries and deaths.
- Texting while driving is about 6 times more likely to result in a crash than driving while intoxicated.
- For every 6 seconds of drive time, a driver sending or receiving a text message spends 4.6 of those seconds with their eyes off the road.
- According to the National Safety Council (Jan. ‘10), 28% of all traffic crashes were caused by drivers using cell phones or texting.
- Texting while driving increases the risk of a crash by 23.2 times over unimpaired driving.

Louisiana Law
R.S. 32:295.1
When a motor vehicle is in forward motion, the driver and every passenger shall wear a safety belt.

Primary Enforcement
A law enforcement officer has probable cause to stop a vehicle so long as the officer has a clear and unobstructed view of a person not restrained.

R.S. 32:300.5
No person 17 years of age or younger shall operate a motor vehicle while using any wireless telecommunication device.

R.S. 32:300.5
No person shall text while driving.

Driving While Intoxicated (DWI) and Driving Under the Influence (DUI)
- According to the National Highway Traffic Safety Administration, in 2009, alcohol-impaired driving fatalities accounted for 32% of all traffic fatalities.
- According to the FBI, in 2008, over 1.48 million drivers were arrested for driving under the influence of alcohol or narcotics.
- The highest percentage of drivers in fatal crashes who had a blood alcohol content (BAC) level of 0.08g/dL or higher was for drivers 21 to 24 years of age.

Louisiana Law
- In Louisiana, drivers under the age of 21 found to have a BAC of at least 0.02 will be charged with DWI. Drivers 21 years of age and older found to have a BAC of at least 0.08 will be charged with DWI.
- If a person is operating a vehicle while under the influence of any controlled dangerous substance listed in Schedule I, II, III, or V as set forth in R.S. 40:964, then he/she shall be charged with DWI.

Air Bags
- Air bags are called supplemental restraints because they’re designed to work best in combination with seat belts.

Louisiana Law
R.S. 32:300.5
No person shall text while driving.
